## Mobilize Your Patient Care

## Premier Series Mammography Vehicles

Armor Mobile Systems designs purpose-built mobile mammography vehicles for many medical practices, universities, government agencies and other community outreach organizations.

We understand the specific requirements necessary to safeguard sensitive medical imaging equipment on the road. Our mobile health vehicles are vibration and temperature tested to meet or exceed all manufacturers' equipment specifications. Our sturdy construction is specifically designed with the preservation of your valuable equipment in mind.

Our new premier series mammography vehicle floor plans are designed to maximize volume and efficiency while also maintaining both patient and staff comfort. We have combined the best practices throughout the industry to create the best built mobile medical vehicles available on the market today. We work with all the top medical equipment providers to optimize your medical coach for your specific program needs. Armor Mobile Systems will always provide the greatest quality and service and back every medical coach we build with a 10-year structural warranty.
